Dear Allen:

In our 16 years of conducting the Cleveland National Air Show, the 1990 facility set up and removal was the smoothest and most efficient we have experienced.

This is particularly remarkable because of the large number of chairs (10,000) and tents (100) that we are now utilizing.

The effort of Miles Chair Rental to provide the equipment as ordered, on time, in its proper place and properly secured is most gratifying.

We would be delighted to recommend your equipment and services to any of our colleagues in the Air Show industry.

Sincerely,
